## General Education Outcomes \& Requirements

General Education (GE) is an integral part of each UWest undergraduate program. All students complete 51 units of GE as part of their bachelor's degree requirements. GE course selections reflect UWest's conviction that the higher education of the whole person requires a breadth of knowledge beyond the specialized study and training covered in the majors.

University of the West's General Education courses empower students to design their own lives, their personal philosophies, their unique ways of being in this world. As they move through their GE coursework, our students explore their inner selves and learn how to face challenges, to make decisions, and to adapt in a rapidly changing world. Along the way, each UWest undergraduate develops and refines the vital skills of writing, critical thinking, and speaking. UWest graduates possess the knowledge, awareness, and skills to be self-reliant, ethical, responsible global citizens who value service to others and respect for the environment.
